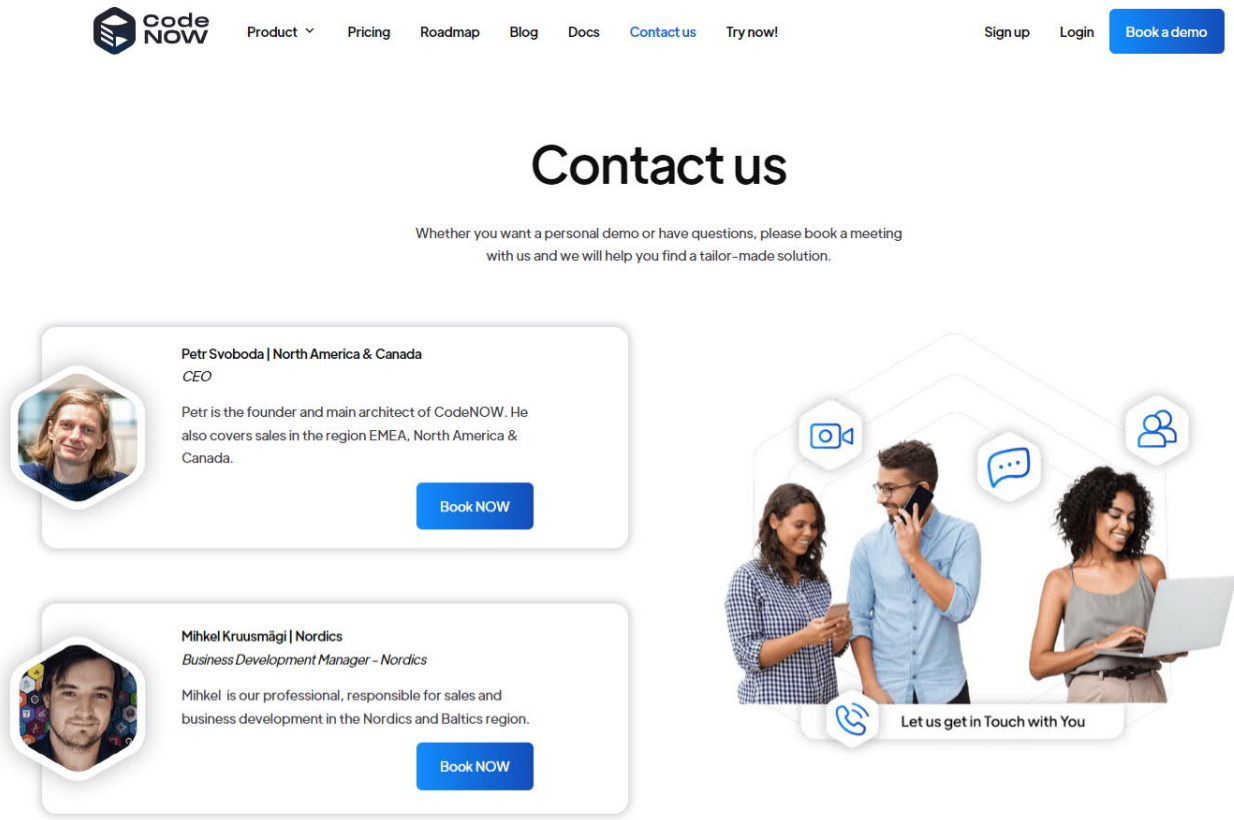
About CodeNOW



CodeNOW for Enterprises

Without CodeNow

Every 7 developers need on average 1 DevOps engineer

- ✕ Stay stuck in monolithic architecture
- ✕ Have multiple vendors with serios vendor lock-in
- ✕ Invest heavily into maintaining your outdated CI/CD pipelines
- ✕ Deliver your value to customers slowly and release only each quartal with service outage

With CodeNow

The software development lifecycle is automated!

- ✓ Save tens of thousands of dollars per micro-service
- ✓ The average developer spends 30% of the billable time waiting for someone else. Remove the wait times with cloud-native development today.
- ✓ Decouple your code and business value from your infrastructure provider.
- ✓ Use self servicing portal instead of hiring DevOps engineer
- ✓ Deliver enterprise-grade software with startup velocity
- ✓ Manage your teams of hundreds effectively

Code NOW

Startups and Small and Medium Companies

Without CodeNow

Every 7 developers need on average 1 DevOps engineer

- ✕ Keep looking for a DevOps rockstar that will wake up at 4am to make servers live again.
- ✕ Keep googling full-stack bits of advice on how to setup your servers and deploy your code.
- ✕ Wake sweaty when realizing you did not secure your customer's database.
- ✕ And most importantly, keep spending that VC's money on re-inventing the wheel pointlessly.

Code NOW

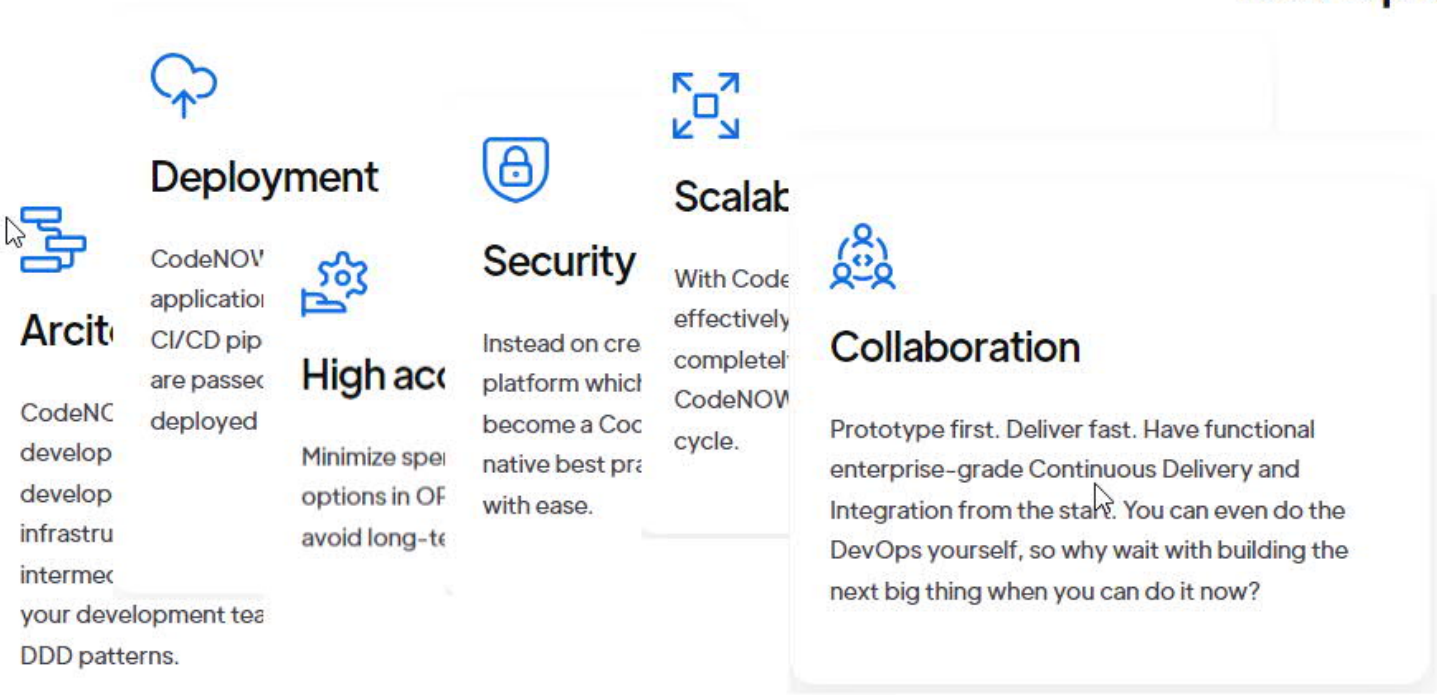
With CodeNow

The software development lifecycle is automated!

- ✓ Enable your CTO's true capabilities and turn him into a superhero.
- ✓ Introduce world-class open-source tools like Grafana, Loki, Kubernetes or Docker into your company instantly.
- ✓ Be able to scale without any infrastructure knowledge.
- ✓ Use self servicing portal instead of hiring DevOps engineer
- ✓ Prove to your investor that you know what you are doing with funding.
- ✓ You never had a testing environment? With CodeNOW, have as many environments you want.
- ✓ Have an idea? Deliver that idea to customers instantly.

Direct benefits of CodeNOW

CodeNOW saves on average 20% of software delivery costs and 70% of DevOps spending?



Code NOW

Who benefits from CodeNOW?

CTOs and Technical Managers

CodeNOW enables your whole organization to develop
vendor
effectiv
waiting
tech.

DevOps Engineers

Instead on creating your own in-house delivery
oud-
on

Software Architects

With CodeNOW you manage remote teams effectively. You can also focus on business logic completely, and omit the technological issues. CodeNOW provides full self-service in DevOps cycle.

CFOs

Minimize spending on infrastructure tooling, h
options in OPEXes, total insight into runcosts
avoid long-term vendor lock-in with CodeNC

CEOs and Business people

CodeNOW improves margins by automation and minimizing staff costs, accelerates time-to-market and enables your company to stay ahead of competition. Put more into the customer's value and less into operations. CodeNOW partially solves the need for developers worldwide.

Entrepreneurs

Prototype first. Deliver fast. Have functional enterprise-grade Continuous Delivery and Integration from the start. You can even do the DevOps yourself, so why wait with building the next big thing when you can do it now?

Direct benefits of CodeNOW

CTOs and Technical Managers

CodeNOW enables your whole organization to develop for the cloud from day 1, optimizes the vendor management, and increases development effectiveness by removing the infrastructure waiting times. Going cloud-native is good for tech.

CEOs and Business people

CodeNOW improves margins by automation and minimizing staff costs, accelerates time-to-market and enables your company to stay ahead of competition. Put more into the customer's value and less into operations. CodeNOW partially solves the need for developers worldwide.

CFOs

Minimize spending on infrastructure tooling, have options in OPEXes, total insight into runcosts and avoid long-term vendor lock-in with CodeNOW.

DevOps Engineers

Instead on creating your own in-house delivery platform which will be ultimately tossed out, become a CodeNOW guru and share the cloud-native best practices across your organization with ease.

Is it real? Some case studies form CodeNOW

KB

The delivery platform helped us to start cloud-native development based on robust unified grounds at scale... It is our platform of choice for long-term, business-driven, technology-enabled transformation.

David Svejda
Head of New Digital Bank at Komerční Banka

KB is a daughter of Societé-General, one of the biggest banks in the world. CodeNOW fitted right in.

INTER CARS

CodeNOW allowed us to keep multi-vendor development under control, which was one of the main reasons why we decided to use CodeNOW. Thanks to the features of CodeNOW, we reached the required level of speed and scalability of development, which was the second reason.

Martin Duda
Product Owner at InterCars

InterCars is a leading European spare parts provider. CodeNOW enabled their multi-teritorry development.

Packeta

We're facing a scaling challenge. The business grows with incredible speed and our IT systems must keep pace. We've started the transformation to a microservice and product-based organization. With CodeNOW, we were able to launch this mission instantly. It's a solid cloud-native backbone.

Adam Horzenberger
Group CTO at Packeta

Packeta is the leading European parcel distribution business, with billions of deliveries around Europe.
